“Collision Course: Forensic Issues in Personal Injury Claims”

Abstract:

In this presentation, we will dive into investigating allegations of income loss as a result of personal injury. Focusing on self-employed business owners, this presentation will go through various areas of consideration that must be given when reviewing business records to assess potential damages, areas that are often overlooked and other lessons learned through many years as an expert witness practicing in this field. We will also walk through tips and tricks for counsel for effective witness preparation for first time witnesses (or even the experienced ones!).

Matthew Mulholland

BBA, CPA, CMA, DIFA, CFF | Partner | Senior Vice President

Matt is a Partner/Senior Vice President with MDD Forensic Accountants who manages the Toronto, Kingston and Ottawa offices. Matt is one of the leaders of the firm's litigation services practice, and has provided expert witness testimony before the Superior Court of Ontario and the Supreme Court of the State of New York.

He has over seventeen years of experience in the areas of economic loss quantification and forensic/investigative accounting. Matt also has been retained to provide investigative accounting reports in a variety of civil matters.

Matt has extensive experience in the areas of personal injury and wrongful death. He has prepared expert reports on behalf of both plaintiffs and defendants specializing in the valuation of past & future income losses, dependency losses, pension losses as well as the present value of future care costs. The valuations prepared in these assignments have been related to a wide variety of occupations (including both employed and self-employed individuals) as well as minors.

Matt has been engaged to quantify economic losses in numerous industries such as power generation, construction, commercial retail, agriculture, general & heavy manufacturing as well as a variety of professional services.

He has presented numerous workshops and seminars on a wide range of forensic accounting topics.

Matt graduated from Wilfrid Laurier University with an Honours Bachelor in Business Administration degree. He received his Diploma in Investigative and Forensic Accounting at the University of Toronto.
