Cognitive Interviewing & Detecting Deception:

The Thomas Sophonow Case

SPONSORED BY:

The Fraud Law Group of

mcmillan

REGISTRATION: 12:00 pm

EARN 4 CPD CREDITS

Presented by **Neil Barker** Cognitive Communication Consultants

You should attend the workshop if you interview witnesses, suspects or complainants in the course of your investigations. Attendees will learn scientifically proven interviewing skills, how to detect deception in a memory and subtle interrogation skills from watching a witness interview 20 years after a murder. You will be able to apply what you learn to your business, your investigations and in everyday life. The Sophonow case will teach you about chain of evidence, tunnel vision, eyewitness identification techniques and investigative bias while working through this wrongful conviction from beginning to end.
